

GREENENERGY

Solar Attic Fan Venting System

Roof Mount
(10, 20 or 30 watts)

Curb Mount
(20 or 30 watts)

Attic venting is an important aspect in maintaining a healthy energy efficient home. Proper venting cools your roof extending the material life and reduces the load on your air conditioning system. Attic venting also increases fresh air circulation. Powered completely by free solar energy, this sleek and efficient vent is both compact and quiet. Fully operational right from the box, it installs easily, with no electrical wiring. And let's not forget powerful! Operating up to 850 cfms, a single 10 watt unit can fully vent up to 1,200 square feet. A 20 watt unit, operating up to 1,275 cfms can fully vent up to 2,000 square feet. And our NEW 30 watt units have an unmatched venting capacity of up to 2,500 square feet (up to 1,550 cfms).
